

Medium DAP & MAP

For Longer Lasting Cereal Response

- Water Soluble P
plus Citrate Soluble P
- Calcium & Silicates
- Comprehensive Trace
- Biology for root development

Available in Bulk, 1ton bulka bags, 25Kg bags

Superior Fertilisers **Medium DAP** and **Medium MAP** combine state of the art mineral fertiliser technology, with traditional fertiliser reliability. The result is strong early development and lasting nutrition through mid to late crop, over varied soil types. This with the extra benefit of Silicates can significantly reduce crop lodging, and ensure response in minimal rainfall situations.

Recommended planting rate will range from 60Kg/Ha to 200Kg/Ha proportional only to yield potential of crop and soil test analysis results.

Medium DAP
